MAIL DATA EQUIPMENT LIST (8/06)

Mail Preparation/Fulfillment Services

- (1) Buskro BK600C Inkjet Imaging System with inline BK530 tabbing/labeling/stamp affixing system and conveyor
- (2) Scitex 5100 Inkjet Imaging Systems with Kirk Rudy bases and high intensity dryers
- (4) Scitex 5120 Inkjet Imaging System with Kirk Rudy base, tabber, and dryer
- (3) Scitex 5122 Inkjet Imaging System (2" print head) with Kirk Rudy base, tabber, dryer
- (2) Kirk Rudy 4-up Cheshire Labelers with conveyors
- (1) Xerox Cheshire 525/E Labeler
- (1) Kirk Rudy High Speed Stamp Head
- (2) Kirk Rudy High Speed Tabber
- (1) Accufast Tabber
- (4) Pitney Bowes 4 station 6x9 Inserter with inline metering
- (1) Pitney Bowes 6 station 6x9 Inserter with inline metering
- (1) Mailcrafter 6 station 6x9 Inserter with inline metering
- (1) Mailcrafter 6 station 9x12 Inserter with inline metering
- (2) Pitney Bowes 6100 Meter Bases
- (1) Formax Maxi Mailer

Data Processing

Novell Networked PC System

Currently using BCC Mail Manager 2010 coding, presort and inkjet software
Also enhance and manage mailing list data with several proprietary software applications developed by Mail Data, Inc.

- (3) Hewlett Packard 8100N series printers for personalization and laser letters
- (2) Taneum Line Printers
- (2) E- Studio 1050 Toshiba series printers for personalization and laser letters
